BUILD A BETTER WORLD

The 2017 Vinita Public Library Summer Reading Program Theme is “Build a Better World”. We will be starting in June. The library is a perfect place for children and families to become empowered to build a better world! This summer’s theme makes use of the universal appeal of creating, repurposing, and building. Through books, games, and

many fun STEAM (science, technology, engineering, art, and math) activities, participants will discover new ways of looking at the world around them. They’ll have the opportunity to challenge themselves, try new things, and work together to make positive change in the world. Families will explore the many ways we encounter the world through the

five senses and common experiences. Just as skyscrapers are built to great heights, one brick at a time, participants will find themselves reaching for the stars through hands-on learning experiences this summer. Go forth and build a better world!!
